

# REGIONAL CIVILIZATIONS PROJECT

Presentations Begin Thursday... 😊

# Today we begin...

- We are going to cover from 730CE to 1650CE.
- A lot was happening in the world
- Often people focus on Europe.
- While Europe is important, other innovations and achievements were happening around the world.

- Too much to cover and too little time.
- Groups will become experts on their civilization and then present their information to the class
- Required: Digital presentation & a Notes Handout to pass out about your civilization

# Presentation (Slides, Prezi, PowerPoint, etc.)

- Title slide & color throughout!
- Minimum of 1 slide per required section
- 1 Image on each slide to enhance the information
- Bibliography slide
  - MLA formatted citations for information **AND** images

# Presentation

- Between 7-10 minutes per group
- Do not go over 10 minutes! 😊
- Every group member must help present the information.

# Notes Handout

- Each group must make a notes handout for every student in the classroom. (1 page/1 side maximum – Key information!)
- Try to be creative and make the notes sheet interactive (fill in the blank as presentation goes, pop quiz questions, etc.)
- Has to be turned in no later than Tuesday (end of class) via email as a **word document!**
  - I will make copies for you.

# Computers and Textbook

- There are computers for you to use in addition to the textbook.
- The textbook is a great starting place...
  - Computers for if you need additional information

- You have 3 days to work in class on the project (plus a weekend)
  - 2 regular 50 minutes periods
  - 1 Block period of 80 minutes
- Presentations will be Thursday-Monday

# Cooperative Group Work

- Each person is responsible for the content they sign up for.
- Each person will also have a role in the group to make sure the project is done on time.
- I would suggest sharing contact information and choosing a collaborative presentation tool
  - Slides, PowerPoint 365, prezzi, etc.
